Check sheets are now called Programs of Study

- Many questions have been asked about how to determine which program of study a student must follow. Here are the rules:

- A student follows his or her own catalog year. Catalog year is determined by the entry term to ASU. (It does not matter when the major is declared.)

- A student may elect, in writing to the Dean’s Office, to move their catalog term forward once during tenure at ASU.

- Catalog term applies to ALL curriculum—Core, General Education, all majors and minors. Changing a catalog term can affect many requirements so the decision to move terms should be discussed with an advisor.

- Please contact the Office of Advising & Academic Support with any questions.
